

Our Family's AI Use Agreement

As a family, we understand that Artificial Intelligence (AI) is a powerful tool that can help us learn, create, and solve problems. To ensure we use AI safely, responsibly, and ethically, we agree to the following:

1. Prioritize Human Thinking:

- We will use AI as a tool to support our thinking, not to replace it.
- We will always engage our critical thinking skills and not blindly trust AI-generated content.

2. Verify and Fact-Check:

- We understand that AI can make mistakes or generate inaccurate information.
- We will always cross-reference information from AI with reliable sources before accepting or sharing it.

3. Protect Our Privacy and Data:

- We will **be mindful of the information we share with AI** tools.
- We will never share sensitive personal information (like addresses, phone numbers, or financial details) with AI.
- We will review privacy policies for the AI tools we use and discuss them as a family.

4. Use AI Ethically and Fairly:

- We will never use AI for cheating**, plagiarism, or any dishonest academic work.
- We will not use AI to spread misinformation**, engage in harmful behavior, or discriminate against others.

5. Be Transparent:

- If we use AI to help with school projects, creative writing, or other tasks, we will be honest about its involvement and give appropriate credit.

6. Balance AI with Real-World Connections:

- We recognize that AI is a tool and not a substitute for human connection.
- We will limit our daily AI interactions and prioritize spending quality time with family, friends, and engaging in real-world activities.
- We will take regular breaks from screens and AI.

7. Learn and Discuss Together:

- We commit to educating ourselves about AI, its capabilities, and its limitations.
- We will have open and honest conversations about AI, sharing our experiences, questions, and concerns.
- We will explore AI tools together and learn how to use them effectively and safely.

8. Set Clear Boundaries:

- We will work together to establish clear rules and expectations for AI use, similar to screen time guidelines.
- We will discuss what information is appropriate or inappropriate to share with AI.

9. Seek Guidance:

- We understand that AI is constantly evolving. If we are unsure about how to use an AI tool or encounter something concerning, we will ask a parent or trusted adult for guidance.

Signatures:

By signing below, we agree to preserve these principles and work together to use AI responsibly and ethically.
